Choice Mixture .....	.....	.50	*.35	*.20	.....	.....

(K) stands for Kunderd. R for ruffled petals.

All items marked \* can be had at the 100 rate,  
the price per dozen multiplied by 5, will give you  
the price per 100.

25 bulbs or bulblets at the 100 rate. 6 bulbs or bulblets at the doz. rate. Bulbs ¾ to 1¼ inches will bloom, most of the ¾ to ¾ size will bloom, if planted early and given good cultivation.

No garden these days is considered complete without it's one or more plantings of this queen of summer flowering bulbs. They are not exacting as to soil and culture. They will grow and bloom under the

most unfavorable conditions, but will do their best in a good soil, a sunny location and will respond wonderfully to good care and culture.

Planting every ten or twelve days from the middle of April to the latter part of June, covering the bulbs about four or five inches deep, will give a succession of bloom from the middle of July to October.

**PLANT A GLAD AND BEAUTIFY YOUR GARDEN!**

*No home without a Garden  
No Garden without Glads!*
